We make every effort to assure your White Page directory listings are accurate and correct. No liability shall be assumed by BTC Broadband for any errors or omissions in the compiling, printing, or distribution of its directories. Should an error or omission occur, please let us know so that it may be corrected in the next issue. We will be responsible for up to the amount paid for the listing service.

Subscribers may arrange for additional directory listings. If there is a problem or question, call our business office at 918-366-8000.

OUR COMMITMENT

For over 100 years, we've been answering the call by delivering quality communications services to residents in the Bixby, and the South Tulsa area. Whether it's Internet or phone service for your home or voice and data solutions for your business, we have an array of options to support the way you communicate.

Our commitment goes beyond consistently improving and updating the products and services we offer.

Our mission is to give back to the areas we serve through participation in local events, sponsorships, and scholarship opportunities for area students. Our personalized, community-oriented approach to our residential and business markets is what helps us maintain long-term relationships with our customers.

We're just a phone call away.

If you have any questions regarding your service with BTC Broadband, the products we offer, or have a simple billing question, please call us at **(918) 366-8000**.

Statement of Non-Discrimination

BTC Broadband is the recipient of Federal financial assistance from the Rural Utility Service, an agency of the U.S. Department of Agriculture, and is subject to the provisions of Title VI of the Civil Rights Act of 1964, as amended, Section 504 of the Rehabilitation Act of 1973, as amended, the Age Discrimination Act of 1975, as amended, and the rules and regulations of the U.S. Department of Agriculture which provide that no person in the United States on the basis of race, color, national origin, age or handicap shall be excluded from participation in, admission or access to, denied the benefits of, or otherwise be subjected to discrimination under any of this organization's programs or activities.

PRIVACY INFORMATION

At BTC Broadband, we know the importance of personal privacy to our customers. We take extensive measures to safeguard and protect your account information. In an effort to protect your identity, we are asking that you call us and make sure that we have a current password on our account. **This password will be used for your identification when you call about your account.**

Federal law allows us to use information from your current records to market and advise you of new products and services that may satisfy your communication needs. **This information is known as Customer Proprietary Network Information (CPNI)** and includes data such as your long distance carrier, calling features, etc. We do not sell or provide this information to other companies other than to meet regulatory requirements such as 911 records.

If you wish to restrict BTC Broadband's use of your information, please send an email to marketing@mybtc.com with your request. If you choose to opt out, you will still receive information such as bill inserts, newsletters, etc. that are sent to our entire customer base.

Another important way we protect your privacy is how we handle your service records, credit and account information. These documents are considered confidential and are treated as such. For additional information on the confidentiality of your

records or to arrange further safeguards for your account, please call Customer Care at (918) 366-8000.

NOTICE: BTC Broadband does not send emails that prompt you to go to a website to provide us with or confirm your email username and/or password. If we require you to change your password, we will call you directly, provide you with a temporary password and direct you to a site that enables you to set your own password without having to disclose the new password to anyone.

BILLING INFORMATION

When is my BTC bill issued?

Bills are issued the 1st of each month. Your payments are required monthly and the payment is due by the 15th of the month. Your monthly bill includes the due date, current and any past due charges, details of your services with BTC Broadband and other charges. Local Service is billed one month in advanced. Long distance charges include call usage that is available at the time of billing.

How do I pay my BTC bill?

Online: View and pay your bill online by downloading the SmartHub app from the Apple or Google Play store or visit BTCBroadband.com and click on the 'My BTC' tab and select 'Pay my Bill.' We recommend setting up Auto-Pay to make direct payments from your checking account or credit card. BTC Broadband accepts Visa, MasterCard and Discover.

Phone: Call 1 (855) 386-9914 and follow the prompts to make a one-time secure payment.

In-Person: Visit our Customer Care Center at 11134 S. Memorial Drive in Bixby, OK during business hours. (A drop box is available for payments made after hours)

What if I can't pay on time?

To make payment arrangements, please contact Customer Care at (918) 366-8000 before the scheduled due date to avoid service interruption.

Should your service be disconnected for nonpayment, contact our office immediately. It is important that any past-due charges for service be paid before the service is reconnected. There is a charge to have your service restored. An additional security deposit may be required to re-establish your credit.

What if I have questions?

Contacting our Customer Care Team at (918) 366-8000, Monday - Friday, from 9:00 am to 6:00 pm, is the quickest way to get your questions answered. You can also send an email to customerservice@mybtc.com if your billing inquiries aren't urgent.

CUSTOMER INFORMATION

Customer Satisfaction

BTC Broadband prides itself in providing customers with excellent service, but we cannot guarantee that there will never be an interruption of your service. If your telephone service is inoperative, other than by reason of negligence, a willful act or causes beyond the control of the Company, and if the service remains inoperative for more than 24 consecutive hours after being reported to BTC Broadband, a prorated refund at the rate of 1/30 of the applicable monthly rate for each period of 24 hours will be credited to your bill, if requested.

If you have a billing or service problem, please call BTC Broadband. Our customer care team is happy to help! Feel free to ask for a supervisor or higher level manager if your issue isn't resolved to your satisfaction.

The Oklahoma Corporation Commission has established rules about telephone consumer/company relationships. These rules cover payment of bills, late charges, security deposits, handling complaints, service disconnections and other matters. These rules assure customers of certain rights and outline customer responsibilities.

If you are still not satisfied with your telephone service, you have the right to file a formal or informal complaint with the Oklahoma Corporation Commission by writing or calling:

Oklahoma Corporation Commission -
Consumer Services Division
Jim Thorpe Building
Oklahoma City, OK 73105
Telephone # 1-800-522-8154
TDD # 1-405-521-2211

BTC Broadband is regulated by the Oklahoma Corporation Commission.

CUSTOMER INFORMATION

CONSUMER RIGHTS

BTC Broadband Agrees To:

1. Provide service if you are a qualified applicant.
2. Follow specific procedures for service disconnection, which include providing you notice postmarked approximately 10 days before service is disconnected.
3. Provide you with information about assistance programs for qualified low-income customers.

BTC Customers Agree To:

1. Use telephone and internet safely.
2. Pay their monthly bill promptly.
3. Contact BTC Broadband about any billing or other errors.

PETITIONING THE COMMISSON

Under Oklahoma law enacted during 1986 (17 O.S. §137) BTC Broadband can raise your local exchange rate up to \$2.00 per month every year without the review and approval of the Oklahoma Corporation Commission. At least thirty (30) days before the effective date of such a proposed rate change each subscriber will be notified by BTC Broadband. Such an increase can be suspended if fifteen percent (15%) of the subscribers petition the Oklahoma Corporation Commission to examine and determine the reasonableness of the proposed local exchange rates.

Each petition shall contain:

1. The name, address, and telephone number of the telephone subscriber.
2. The signature of the telephone subscriber in whose name the telephone service is listed.
3. The reason the subscriber opposes the proposed increase (optional). Only the subscriber in whose name the telephone service is listed shall be counted as a petitioner.

TELEPHONE REPAIR SERVICE

BTC Broadband strives to provide our customers with the best telephone service possible. When customers have occasional problems, we try to solve those problems as quickly and efficiently as possible.

BTC Broadband is always responsible for maintaining and repairing our own network facilities. We make repairs to the phone lines on BTC's side of the Network Interface Device (NID) at your home or business at no charge to you.

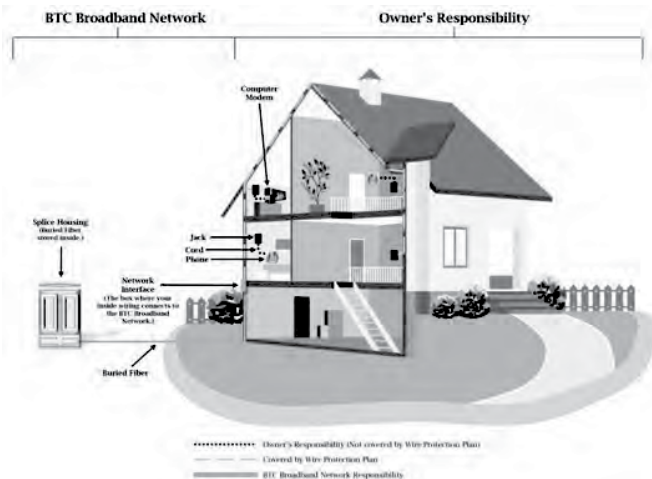

As the customer, you are responsible for maintaining and repairing anything that runs from the NID (usually the grey box located on the outside of your home or the Optical Network Terminal for our customers served by fiber), through your house, up to and including your phone jack and telephone equipment. (See illustration)

To repair problems on your side of the NID requires a charge, unless you subscribe to Wire Protection Plan. Wire Protection is an optional monthly service for residential telephone customers that provides repair protection for the telephone jacks and wiring inside your home.

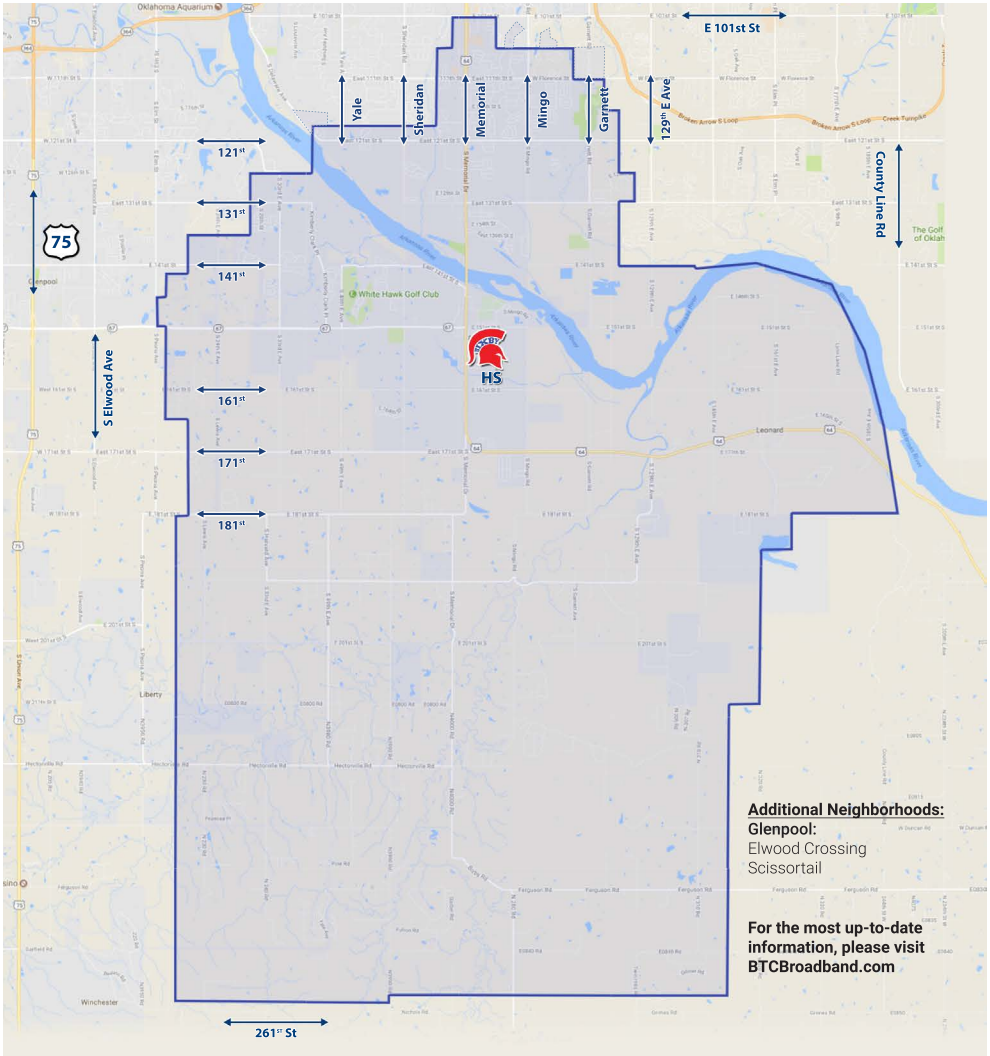

What if it's my telephone set?

Since we are not authorized to make repairs on your phones or equipment, we recommend contacting the manufacturer or any other source you choose to repair the telephone.

For more information on the Wire Protection Plan and how to sign up, please visit BTCBroadband.com/support for complete details.

RESIDENTIAL SERVICE AREA

We are continuously adding more service To find out about availability in your area, please call 918-366-8000 or visit BTCBroadband.com.

LIFELINE SUPPORT PROGRAM

The **Lifeline Support Program** is a federal program dedicated to making the phone and Internet service more affordable to low-income households. The program includes access to a telephone network with unlimited local calls, access to 911 emergency services, and access to 25 Mbps Internet service.*

How to apply?

Create account and complete the online application on the Lifeline Support webpage: www.lifelinesupport.org

Who is eligible?

A household is eligible if it has income that is below 135% of the Federal Poverty Guidelines or participates in one of the following government assistance programs:

- Medicaid/SoonerCare
- Supplemental Nutrition Assistance Program (SNAP)
- Supplemental Security Income (SSI)
- Federal Public Housing Assistance (Section 8)
- Veterans or Survivors Pension Benefit
- Bureau of Indian Affairs General Assistance
- Tribal Temporary Assistance for Needy Families (TTANF)
- Food Distribution Program on Indian Reservations (FDPIR)
- Head Start (if income eligibility criteria are met)

BTC Broadband also offers a Link Up America discount for eligible new Lifeline voice or broadband subscribers.**

For the latest information on Lifeline and how to apply, please visit www.lifelinesupport.org or call **BTC Broadband at (918) 366-8000**.

**Must live in BTC service area, excluding taxes, surcharges and fees. 25 Mbps broadband Internet service (hardwired and best effort). Other available services may be added with additional charges. Customers cannot receive more than one Lifeline service credit regardless of the number lines or locations where the customer receives service within the state of Oklahoma.*

***The Link Up America discount for new broadband subscribers is \$100 credit towards broadband installation charges if the subscriber qualifies (\$100 value). Either Link Up America discount is in addition to the recurring monthly Lifeline discount. Additional restrictions may apply and are subject to change. Call for details.*

HELPFUL INFORMATION

What should I do about telephone solicitors?

In April 2002 Oklahoma created a Telemarketer Restriction Act requiring the Attorney General to maintain a list of consumers who do not want to receive unsolicited telemarketing calls. To place your name on the list, call the Attorney General at 1-405-521-3921, or register online.

You can register online at DONOTCALL.GOV if you have an active email address. You can call toll-free, 1-888-382-1222 (TTY 1-866-290-4236), from the number you wish to register. Registration is free. Telephone numbers placed on the registry remain on it forever. The FTC will only remove your number from the Registry if it's disconnected and reassigned, or if you ask them to remove it.

What if I get a threatening, obscene or nuisance phone call?

If you receive obscene or nuisance calls, follow these suggestions:

- Hang up.
- Give no information.
- Advise children to do the same.

Making threatening, obscene, or nuisance calls is a violation of state and federal laws. If you receive a threatening call, report it immediately to the police. BTC Broadband's Calling Features, including Caller ID, Selective Call Rejection, and Customer-Originated Trace, are available for an additional fee and can help prevent annoying calls. Often, changing your telephone number will resolve the problem. For more information, call our Customer Care Team at 918-366-8000.

What are Robocalls?

A robocall is a phone call that uses a computerized autodialer to deliver a prerecorded message, as if from a robot. These prerecorded messages can have various goals – to provide unnecessary information, to advertise a product, or in the worst-case scenario, try to scam consumers.

What are common Robocall scams?

The most common robocall scams attempt to play to consumer concerns about security, loans, travel, charity, or others. Scammers are getting more and more creative, and general precaution is strongly recommended when accepting a call from almost any number – even if it looks familiar. Impostor scams will impersonate friends, family, banks, government agencies, and more.

What are the Robocall Prevention FCC Mandates?

- Carriers to offer call-authentication technology to everyone at no additional charge.

HELPFUL INFORMATION CONT.

• Robocall blocking is provided at no extra cost to all Consumers. Please contact us if you wish to opt-out

Visit BTCBroadband.com/support to learn more about how BTC is proactively taking steps to help protect consumers against Robocalls.

What is Slamming?

Slamming is when your long distance company or local service provider is illegally switched by a competing long distance company or local service provider-without your knowledge or permission.

Although BTC Broadband is not responsible for slamming incidents, we are doing everything possible to help you protect yourself and to help straighten things out if you are a victim of slamming. That's because we're committed to being your most trustworthy and reliable provider of telecommunications services and to delivering the best customer service.

How do I prevent Slamming?

Read your BTC Broadband bill carefully.

If your long distance provider has been changed, a switching charge will appear on your bill, along with the name of your new long distance company.

Ask questions.

If someone from another company calls and asks you to switch companies, make sure you understand what they're offering and

get a copy of it in writing. Ask for their name, address and phone number. When you ask a lot of questions, slammers often hang up because they realize you won't be tricked.

Read the fine print.

Some companies distribute contest or sweepstakes forms that are also authorization forms allowing the company to switch your service. Never fill out entry forms without reading them carefully.

Upon request, you can restrict changes to your long distance carrier that require your personal approval.

To receive this, contact us at 918-366-8000 and request the free "Long Distance Carrier Freeze Service Letter (PIC Freeze)" or visit our website at BTCBroadband.com.

Can phone calls be recorded?

It is illegal to record a telephone conversation without the consent of one or both parties prior to the recording of the conversation. Prior consent must be obtained in writing, or be part of and obtained at the start of the recording.

EMAIL SECURITY BEST PRACTICES

Email Security Best Practices

ALWAYS

Check the email 'From' field to validate the sender. This 'From' address may be spoofed.

ALWAYS

Check for so-called 'double-extended' scam attachments. A file named 'safe.txt' is safe but a file called 'safe.txt.exe' is not.

ALWAYS

Note that www.microsoft.com and www.support.microsoft.com are two different domains. ***Only the first one is real!***

DO NOT

Ever click embedded links in messages without hovering your mouse over them to first check the URL.

DO NOT

Open any email attachments that end with .exe, .scr, .bat, .com or other files you do not recognize.

DO NOT

Respond or reply to spam in any way. Use the delete button.

Source: KnowBe4, Inc.

ONLINE SECURITY BEST PRACTICES CONT.

The Internet is what binds our digital life. We use it to shop, connect with loved ones, or watch our favorite TV and movie shows. **When using the Internet, it's important to stay vigilant.** Hackers are getting smarter and are getting creative with how they scam unsuspecting victims.

Here are 4 ways you can practice online security:

1. Strong Passwords

Strong passwords provide another layer to ensure online Security. It is essential to continue changing your password often. Your strong password should also contain capital letters, lowercase letters, numbers, and special characters. To ensure a strong password, do not use birthdays, names, or phone numbers.

2. Two-Factor Authentication

Two-factor authentication allows you or your corporation to have two separate forms of identification to access an account. It is usually warranted after you sign in with a password, and the second is a text message. For example, have you ever verified an account by logging in and then receiving a code via text message before you could fully access the account? That is two-factor authentication, and it has proved remarkably successful.

3. Social Media

You can keep your social media secure by changing your password every three months. Ensure it is a complicated and robust password every single time when you do change it. Social media is a prime playing field for hackers because we include a lot of sensitive data like personal information, sharing the details of our lives, and sharing content that could be a harmful link from a spammer.

4. Public Networks

Ensure your computer's security by remaining connected to a safe and secure online connection. Your network that has a strong password and is private will be your best option besides a Virtual Private Network (VPN). A VPN ensures an extra layer of security with an encrypted connection over the Internet from your device to a network. It ensures that sensitive data is safely transmitted.

CALLING FEATURES QUICK GUIDE

After you contact BTC Broadband and request the Calling Features you want, you may use the following codes to enable and disable them. Automatic Callback, Automatic Recall, and Customer-Originated Trace are already programmed on your phone line.*

Feature	Enable	Disable

CALLING FEATURES QUICK GUIDE

Directory Assistance Information

Local Dialing Area*	411
Non-Local, Within 918 Area Code*	411
Outside 918 Area*	1+Area Code+555-1212

Toll Free Number

A Toll Free (800/888/877/866/855/844/833) number is an inexpensive, convenient option to inbound long distance charges for businesses with non-local clients, parents with children away at college, or for family members or employees who travel or who live at a distance. Contact us for additional information.

Long Distance Dialing

BTC Customers dial Area Code + Number for long distance calls, if calling plan includes Long Distance. To use another long distance carrier, dial 101XXXX+Area Code+Number.

Note: XXXX is a 4 digit carrier identification code specific to each long distance carrier. Calls using a carrier other than the one you subscribed to may be billed at a higher casual rate.

BTC Broadband Long Distance

BTC Broadband has low long distance rates available in a variety of plans including unlimited long distance. Whatever your calling needs, let us help you select a plan that is right for you. Please call (918) 366-8000 for details or visit BTCBroadband.com.

International Calling

International rates vary depending on what country and city you call. To protect our Customers against fraud, International Calling (except Canada) is blocked. If you wish to make International Calls, please contact us.

How to Make International Calls

TO MAKE DIRECT DIAL CALLS USE THE CHART BELOW AND DIAL:

Example - La Paz, Bolivia: 011 + 2 + Number

For more information on international dialing, please visit the following website: <https://countrycode.org/>

LOCAL CALLING AREA

BTC Broadband Local Calling Plan Area (Toll-Free)

To call inside the Local Calling Area, you must dial all 10-digits of the telephone number. Outside the Local Calling area dial 1 + 10 digits of the telephone number.

NOTE: We allow 10 digit dialing on a permissive basis outside the LCA, but the official standard is 1 + 10D.
